Location: Shooters Waterfront Café on the Intracoastal at Oakland Park Blvd. 566-2855

Cost: \$25.00 per person
Advance Registration Requested

Reservations:

Contact Paula at 776-1731
or e-mail hullpc@cdm.com on or before
January 26, 2001

SCHOLARSHIPS

This year the Broward Chapter of FES is embarking on a program to reach out to High School Students to give them an opportunity to "Discover Engineering". As we present this program we are sure to excite some of these students into considering a career in engineering. However, as we all know too well, the cost of education has increased substantially and is sure to continue to rise. To help offset those costs the Broward Chapter of FES offers a \$2500 scholarship to a student. I am sure that there are several firms that offer similar opportunities for qualified students. As we present our program this year, we would also like to present a consolidated list of scholarship opportunities so students and guidance counselors can have all the financial opportunities that will help further the engineering profession. If your firm is one of these such firms that

offers a scholarship program please let us know so we can add it to our scholarship program list. If your firm does not offer a scholarship program but you would like to offer some financial opportunities, you can donate to the Broward Chapter of FES scholarship program. This would allow our society to increase the scholarship amount or be able to offer more than one scholarship. There is no greater gift that I can think of than giving an opportunity for a student to fulfill a dream of becoming an engineer. If you also offer summer intern positions for high school students, let us know about it also. Contact oneiltj@cdm.com.

MATHCOUNTS

The Broward County Mathcounts will be held at the New River Middle School. Last year Florida placed eighth in the National Competition.

Date: February 10, 2001
Location: New River Middle School
3100 Riverland Road
Fort Lauderdale, FL 33312
797-4500

ENGINEERS WEEK – February 18-24, 2001

Founded in 1951 by the National Society of Professional Engineers, National Engineers Week is celebrated annually by thousands of of engineers, engineering students, teachers, and leaders in government and business.

At the heart of Engineers Week is Discover "E", in which engineers leave their designs and CADD workstations to visit classrooms from kindergarten through high school. In the classroom, the engineers show practical applications of math and science, and talk with students about the profession

The success of E-Week 2001 depends on you. Now is the time for FES members to get involved.

PRESIDENT'S CORNER

Happy New Year. Welcome back to work. Like you, the Broward Chapter has a full slate of events coming up the first part of this year. I would like to take this opportunity to outline our chapter calendar for the first two months of this year.

In January, our regular meeting is the Legislative Forum. We expect an interactive event geared for questions and answers. The Forum will be held on Tuesday, January 30. There will not be a regular meeting on January 18th. Please mark your calendars and be sure to RSVP.

Our Mathcounts committee has been aggressively signing up schools for this year's event. The date of the tournament is February 10th. Volunteers the day of the event are always welcome. This is an easy way to support the chapter. If you have never witnessed a Mathcounts competition, then mark this date on your calendar and be prepared to have a lot of fun.

EWEEK is slated for the last week of February. This year we are taking the message of "Turning Ideas Into Reality" back to the schools. We are scheduled to visit approximately 10 schools during EWEEK. The Broward Chapter is developing an integrated presentation that will be geared towards our high school audience. All we need in order to visit more schools is the volunteers. So if you are interested please contact us.

Our EWEEK banquet is scheduled for Saturday, February 17th. This year's event will be a Valentines celebration. So bring yours and join us. We will be limiting the number of RSVP's accepted this year in order to make this event intimate and memorable.

I look forward to seeing all of you at this month's Legislative Forum.

Sincerely,

Stephen E. Bailey, P.E. President

2000-2001 SOCIAL PROGRAMS
