WHERE: Shooters

WHEN: Thursday

4/18/02

Noon to 1:30pm

COST: \$20 per member

PROGRAM: CERP Info

## DISCOVERING ENGINEERING A SUCCESS...AGAIN!

Last year the Broward Chapter of FES conducted a presentation to local high schools discussing the multiple career opportunities students have in the engineering field. Because of the hard work of Peter Sheridan, the Broward Chapter won the first prize in the State's ACE Award competition! The ACE Award is a distinguished honor and competition is tough.

This year Peter Sheridan once again championed this important outreach to local high school students. He managed to improve his 40 minute multimedia PowerPoint presentation, and headed up a committee to identify and organize volunteer presenters to attend every high school in Broward County. With all of the career opportunities young people have today, it is important that engineers pass the torch to the next generation.

FES Broward Chapter would like to take this opportunity to thank Peter Sheridan for all of his hard work and dedication that has made this program such a great success! If you are interested in presenting next year, or have a similar activity that FES can support, please contact Sandra Smith at (954) 436-7000

## THIS MONTH'S PROGRAM

This month's presenter is **Michael Davis**. Mr. Davis holds a B.S. in Biology and Environmental Science and an M.S. in Biology, both from Austin Peay State University. Mr. Davis has a notable background in water resources, environmental policy, legislation and governmental relations. He has served in a senior capacity in the Army Corps of Engineers, the White House Council on Environmental Quality, the Environmental Protection Agency and the United States Department of the Interior. Most recently, he served as DOI's Director of Everglades Restoration. In this role he was responsible for the development and coordination of policy; and legislative and budget proposals related to the restoration of the South Florida Ecosystem. Before his appointment at DOI, Mr. Davis served for five years as the Deputy Assistant Secretary of the Army. In this role, he was responsible for policy and legislation for the Army Corps of Engineers' civil works program. This included the development and authorization of the Comprehensive Everglades Restoration Plan, three Water Resources Development Acts. In addition, Mr. Davis served as the Chair of the White House Wetlands Working Group and was instrumental in the development of national wetlands policy and regulations. With his extensive knowledge of state and national water and environmental policy, regulations and legislation, Mr. Davis leads Keith and Schnars in its environmental and government markets. His reputation and recognition by environmental agency leaders and staff in the state of Florida and in Washington, D.C. offers our clients a profound resource for resolving environmental issues as well as policy and legislative consulting services. Mr. Davis will be speaking about the Comprehensive Everglades Restoration Program (CERP).

## PRESIDENT'S MESSAGE

**Sandra Smith, P.E**

**Broward Chapter President, 2001/2002**

Last month I focused on the many events that took place over the first part of 2002. Now it is already time to begin looking forward to the next year.

As we move toward the final months of this FES year, we are looking for nominations for the Secretary position for next year. Some of the responsibilities include attendance at the majority of monthly meetings and board of director's meetings, taking and issuing minutes of the board of director's meetings, preparing and distributing the newsletter (with input from the rest of the board, of course). This may sound like a lot of work, but we've streamlined much of the process . . . like the newsletters which are now distributed to nearly 2/3 of the membership via email! The candidate must be a P.E. in the State of Florida, a member of our FES Chapter and interested in accepting this rewarding position.

Tery will also be looking for volunteers for next year's committees. The state level committees need to be filled by June, so please contact Tery if you are interested. Some of the available committees include MathCounts, Scholarship, Annual Meeting Steering Committee, Charter and Bylaws Committee. We are looking for members willing to make the commitment and that have been attending some of our local events and meetings or have served on a local committee. As a member of the state committee you will also be responsible for keeping the board informed of the issues involved/actions taken by the state committee. Or volunteer to serve on one of our local committees. You can get more information on the committees from the FES web site ([www.fleng.org](http://www.fleng.org)) or by contacting any board member.

Each commitment you make to the society helps us achieve one of our goals. Whether that be our goal of achieving an average meeting attendance of 30 or to increase the awareness of the Engineering profession, it is not possible without you – the members!

APRIL 2002

## FES WANTS YOU TO GET INVOLVED!!!

### 2001-2002 CHAPTER OFFICERS

President	Sandra Smith	436-7000
President-elect	Terrance Glunt	725-8100
Treasurer	Tim O'Neil	776-1731
Secretary	Jim Thompson	730-0707x103
